

CHINEDUM MARK NDUBUEZE

Full Stack Web Developer

Email: markzuibezim@gmail.com
Phone: +234 816 439 4788
Location: Umuahia, Abia State, Nigeria

01 PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer skilled in building high-performing, scalable web applications with React, Tailwind CSS, Node.js, Express, and MongoDB. Proven track record implementing custom booking pipelines, reducing web application load times by ~50%, and integrating automated billing and order management workflows. Experienced in maintaining high data integrity, streamlining digital records, and collaborating with cross-functional teams to drive digital commerce growth.

02 EMPLOYMENT HISTORY

Full Stack Web Developer — MarkZu Footwears Present
Umuahia, Abia State, Nigeria

Lead developer and maintainer of MarkZu Footwears e-commerce platform, engineering full-stack production features and automated business systems using React, Node.js, Express, and MongoDB.

- Developed responsive client UI and optimized backend architecture, reducing average page load time by ~50% and improving checkout conversion by ~20%.
- Engineered Stripe payment gateway, centralized order-management dashboard, and automated customer email alerts, cutting manual order processing time by ~70%.
- Built CI/CD automated deployment pipelines and containerized environments with Docker, elevating release turnaround and production uptime.
- Automated client data collection workflows, eliminating sizing discrepancies, billing record inaccuracies, and delivery scheduling errors.
- Maintained 100% data integrity across digital records via structured audits, supporting operations and driving a ~35% sales increase within 6 months.
